WAREESHA JANNAT

WEB DEVELOPER

Email | GitHub | Portfolio

PROFILE SUMMARY

Aspiring **Web Developer** who builds real-world projects using modern web technologies. I focus on writing clean, maintainable code and creating responsive user interfaces while continuously learning best practices. Through hands-on project work, I have developed a solid understanding of frontend and full-stack concepts and I am eager to contribute, learn, and grow within a professional development team.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), React, Next.js, Tailwind CSS, Bootstrap

Backend & Databases: MongoDB (Mongoose), PostgreSQL (Prisma)

Auth & APIs: NextAuth, JWT, REST APIs   **Tools:** Git, GitHub, Vercel

PROJECTS

Echo — Social Media Web App

Next.js, PostgreSQL(Prisma)
- Built authentication, posts, follows, and real-time chat
- Implemented session-based authentication with OAuth (Google)

Virtual Question Bank — Exam Platform

Next.js, Express.js, MongoDB(Mongoose)
- Developed timed exams, analytics, and admin/student dashboards
- Implemented JWT-based authentication and role access

BoostMe — Creator Support App

Next.js, MongoDB(Mongoose), NextAuth
- Built creator profiles, donations flow, and dashboards
- Implemented secure authentication and clean UI flows

EDUCATION   2023 - 2025

BS Computer Science

Virtual University of Pakistan
