PROFILE SUMMARY

Full Stack Developer with a strong frontend focus, specializing in React and Next.js to build fast, responsive, and user-friendly web applications. Experienced in developing complete full-stack features including REST API integration, authentication (JWT/OAuth), role-based access control, and database-driven workflows using PostgreSQL (Prisma) and MongoDB. Passionate about writing clean, scalable code and delivering production-ready solutions that improve user experience and system reliability.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB (Mongoose), PostgreSQL (Prisma)

Authentication: NextAuth.js, JWT, Session-based Authentication, OAuth

Tools & Deployment: Git, GitHub, Vercel, Railway

PROJECTS

Echo — Social Media Web App

Next.js, TypeScript, PostgreSQL (Prisma)

- Built a full-stack social media web app with posts, follow system, profiles, and mood-based filters using Next.js and PostgreSQL (Prisma)
- Implemented session-based authentication with Google OAuth and integrated real-time chat functionality

Virtual Question Bank — Exam Platform

Next.js, Express.js, MongoDB (Mongoose)

- Built full-stack online exam platform with timed exams, analytics, and dashboards for admins and students
- Implemented JWT-based authentication with role-based access control and dynamic exam management

BoostMe — Creator Support App

Next.js, MongoDB (Mongoose), NextAuth

- Developed creator profiles, dashboards, and a secure donations flow using Payfast (test environment)
- Implemented authentication and clean, responsive UI for seamless user experience

EDUCATION

BS Computer Science

Virtual University of Pakistan

2023 - 2025 (completed)
