

WAREESHA JANNAT

FULL STACK DEVELOPER

REACT | NEXT.JS | NODE.JS

PROFILE SUMMARY

Full Stack Developer with hands-on experience building modern web applications using React, Next.js, Node.js, and MongoDB/PostgreSQL. Skilled in developing responsive interfaces, REST APIs, authentication systems, and admin dashboards, with experience deploying and maintaining full-stack applications.

PROJECT EXPERIENCE

NIBLETECH — BUSINESS WEB APP

Next.js | MongoDB (Mongoose) | Mar 2026 – Apr 2026

- Built and deployed a business web application with admin dashboard and dynamic management features
- Developed frontend/backend functionality, REST APIs, and database-driven workflows
- Deployed and managed application on Hostinger VPS using PM2

ECHO — SOCIAL MEDIA WEB APP

Next.js | TypeScript | PostgreSQL (Prisma)

- Built a full-stack social platform with user profiles, posts, mood filters, and real-time chat.
- Implemented Google OAuth authentication and session-based access for secure user authentication.
- Integrated media uploads and developed a responsive interface for desktop and mobile users.

VIRTUAL QUESTION BANK — EXAM PLATFORM

Next.js | Express.js | MongoDB (Mongoose)

- Built a full-stack exam platform with separate student and admin dashboards, timed examinations, practice mode, and performance analytics.
- Implemented dynamic exam generation, role-based access, and JWT-based authentication.
- Developed REST APIs and database-driven workflows for questions, exams, users, and dashboard functionality.
